

It's time to get creative!

Pretend you're a giant and design your own woodland

Amazing mini woodland

1

First, find a blank canvas – a grassy area or earthy patch of forest floor is perfect.

2

Next, look for leaves, sticks, pine cones and feathers. These will be your trees.

Hide something tiny among the trees, then draw a map and mark the treasure on it. Challenge your friends and family to find it!

3

Plant the 'trees' and use other natural items to add paths, benches, pools, fences, sculptures and dens.

Perhaps your favourite toys could visit your woodland?

Feel free to copy and share this for personal and educational use – and don't forget there are loads more brilliant activities to download on our website!
